Introduction

SYLVAC CATALOGUE

A traditional family company

Family businesses can be distinguished from other 'private' companies by their long-term vision and prudent financial structures, which make them less likely to engage in speculative activities. Having cultivated this kind of stability for 50 years, Sylvac SA has been amply rewarded by the exceptional loyalty of its staff, who identify with these values and demonstrate a remarkable degree of commitment.

Niche hi-tech products

Based in French-speaking Switzerland, a region described as the cradle of cutting-edge microtechnology, Sylvac SA develops, designs and manufactures digital measuring systems and instruments for industrial use. Drawing on a resourceful mix of expertise in electronics, mechanics and metrology, our high-precision products are renowned for their innovation and highly prized Swiss quality.

An exceptional global presence

Despite its modest size in global terms, Sylvac SA has become one of the world's leading companies in the field of dimensional measurement. Sylvac instruments are distributed across over 50 countries by a network of loyal representatives who offer them to their customers, among which are several prestigious brands that place their trust in us.

A solutions and service-oriented strategy

By taking an interest in the increasingly complex quality requirements faced by our customers, we are able to act as a genuine partner for whom the completion of a sale is just a starting point. Sylvac SA and its partners work upstream to provide each of our customers with the most suitable solutions while paying particular attention to service quality.

Tradition, receptiveness, ingenuity and boldness, as well as rigour and attentiveness, are some of the words that best define what we offer at Sylvac SA.

Why should you choose our products?

There are many sound arguments in our favour, particularly:

- Products developed and made in Switzerland with the «Swiss Made» label, representing acknowledged proof of quality throughout the world.
- Innovative, ergonomic, durable instruments designed by professional designers.
- A global presence based on a network of efficient agents who are able to provide you with local support in more than 50 countries.
- Products that meet international standards, most with IP67 protection and connection via cable or Bluetooth® technology.

We hope that you will enjoy looking through our catalogue and using our Sylvac instruments. Thank you for your confidence in us. We remain faithfully at your service.

Certificates

SYLVAC PRODUCTS

**SYLVAC named best
SMEs in western
Switzerland in 2016 !**

3-year guarantee :

The Sylvac brand is built on leading edge know-how in electronics, micro-electronics and micro-mechanics. Confident in the quality of its products, Sylvac offers a 3-year guarantee on its product range. (except optical machines with 2 years of guarantee, plus optional extension packages available)

Error max :

The total error mentioned in our technical specifications corresponds to the maximum difference between the highest and lowest deviation from the true position within the instrument's measuring range.

A certificate of calibration is delivered for all our instruments with a resolution of 1 µm and indicates the effective maximum error of the instrument, controlled in our laboratory.

The repeatability is defined as the maximum spread of series of measurements taken at the same position by the same operator and under the same conditions.

Max. error fe

General information

SYLVAC PRODUCTS

SYLVAC PRODUCTS :

The Sylvac patented inductive measuring system is insensitive to magnetic fields and liquids on the sensor or on the measuring scale. A very low consumption system keeps the zero setting even when switched "off". This system is particularly well adapted for measuring instruments such as calipers, indicators etc...

The Sylvac patented capacitive measuring system is used for the linear probe type of instruments where the sensor is integrated in the probe. As opposed to inductive half bridge and LVDT probes, the capacitive Sylvac system can be used over a large measuring range (up to 50mm) while preserving an excellent linearity (1µm/25mm) and repeatability (0.2µm).

Characterizes the instruments whose the electronic module and the measuring system are protected against liquids. The IPXX degree defines the protection rating of the instruments.

Characterizes instruments equipped with a Smart Inductive Sensor with an extremely low power sleeping mode, which keeps its origin (last zero setting) and automatically wakes up when a movement is detected.

IP54 / IP65 / IP67

Characterizes instruments whose electronic module and measuring system are protected against liquids. The IPXX degree defines the protection rating according to IEC 60529.

IP54 : protected against dust. Protected against water spray from all directions

IP65 : completely sealed against dust, protected against water jets from all directions

IP67 : completely sealed against dust, protected against temporary total immersion

Power and battery life

All the handtools, indicators, scales and micrometer heads are powered with a Lithium battery CR2032. If equipped with a «Power» output, the connector replaces the battery and the power is given by the PC or the display unit.

Smart tools Bluetooth®

Sylvac devices integrating Bluetooth® wireless technology can achieve a range of about 15 meters. Electromagnetic wave emissions of the Bluetooth® low energy module are limited to 1 mW, which equals 1/100 of the power emitted by a WiFi network and 1/40 of the GSM/3G emission power of a smartphone.

If the device is kept at a distance of at least 20 cm, the effects on the human body are therefore thousands of times smaller than those of a cellphone held to the ear.

IOT ready functions :

- Choose your profile
- Customise functions
- Save functions
- Monitor battery life
- Manage calibration date
- Blinking display function

Battery life with a CR2032 battery depending on working mode :

Comments :

- Values may change depending on type of instrument.
- CR2477 battery usable with some instruments (four times the battery life compared to CR2032).
- SBY: Sleep mode with automatic wake-up on movement. Point of origin is preserved.
- OFF: Full off mode, wake-up only by pressing a button.

Bluetooth® 5.0

Bluetooth® technology at Sylvac is moving from core specification 4.0 to 5.

- Seamless migration
- Open the way to long range
- Improve battery life

All our instruments and software are Bluetooth® 5.0 compatible.

DATA TRANSMISSION & SOFTWARE

With the help of the latest technologies, the industry is taking a new historical turn and is becoming increasingly «autonomous». In the sense that processes are simplified, ordered and organised in a predictive manner, inter-system connectivity is at the heart of the Industry 4.0 concept.

This new model is intended to be more interactive, in the sense that it is no longer up to the employee to fetch the information, but up to the devices to give it to them. Measuring instruments are an integral part of this process, which is why Sylvac is committed to offering innovative solutions for data collection and processing, which you will find in this chapter.

Data transmission and software

CONNECTIONS

A

What is the future for metrology?

Industry 4.0 and other similar concepts want to take data collection to new levels, monitoring all along the manufacturing process, collecting and storing information from all measuring equipment.

Traditional metrology will evolve towards more automation and digital (paperless) solutions which will enable increased traceability and remote monitoring of a whole set of information centralised on one server.

Sylvac is ready for the challenge!

As Pioneer and Expert in connected Metrology, Sylvac did not wait the current excitement for data acquisition to offer reliable connection options and data processing software on the market. We have been striving to provide solutions for decades, first of all by offering wired connections (RS232 then USB) and over the last few years, by launching amazing Bluetooth wireless instruments that meet the current requirements, this at a price similar to the wired solutions of yesteryear.

The advantage of our instruments with Bluetooth® Wireless technology

Wired connections limit operator's freedom of action and more flexibility for the operator requested to execute measurements. New solutions can also be implemented for controlling components using specific instruments or positions. Here are some of the highlights:

- The solution is totally integrated into the instrument
The wireless Bluetooth® transmitter is fixed on the electronic module of the instrument and no further accessory is required. The Sylvac instrument with Bluetooth® Wireless technology that you receive is ready to be connected. Most of our competitors claim to offer wireless solutions, which are not really wireless solutions, or which require an external element to be acquired which is often fragile and costly! Our integrated system also has the advantage of not being sensitive to liquids or dirt.

- Transmission distance
The maximum distance between the instrument and the peripheral device receiving the values is generally between 5 and 15 meters, depending on the configuration of the premises and any potential disruptive influences. Given that a wired USB connection is limited to 7 meters, the transmission range of our instruments with Bluetooth® Wireless technology is therefore greater than wired connections most of the time!

- Autonomy
Sylvac's technological achievement was to offer a solution with energy-efficient Bluetooth® Wireless technology so that our instruments powered by a standard lithium battery could remain connected and used for several weeks, even several months. This is achieved thanks to our patented measurement system (Sylvac System) which only needs minimum energy. On request our agent can give you an estimate of the battery service life of your instrument taking your specific usage conditions into account.

Data transmission and software

CONNECTIONS

A

- Duplex Transmission
Sylvac instruments are currently the only instruments able to communicate bidirectionally by Bluetooth® Wireless technology with the peripheral to which they are connected. This means that they can both send values and information and receive and interpret them. The best example of this is the transmission from the computer of a zero reset command for the instrument. This ensures the synchronisation of the value displayed on the instrument and on the peripheral device in order to limit the risks of error.
- Freedom of action at the price of a wired connection
One important factor to consider when selecting an instrument is of course its price! Our Sylvac instruments with Bluetooth® Wireless technology also offer, as well as the features listed above, the benefit of not costing more than a traditional wired digital instrument. Therefore they can be used everywhere as replacements for wired instruments.

How to connect our instruments with Bluetooth® Wireless technology

Flexibility is one of the watchwords that characterise our Sylvac instruments with Bluetooth® Wireless technology. They can be connected to a computer running Windows, to our D300S and D400S display units and to a Smartphone or Apple or Android tablet. This is how to connect them:

- Connection to a computer
There are different requirements depending on the instrument and the Windows operating system running on your computer. The most reliable solution is to attach a Sylvac Bluetooth® dongle to your computer which can connect up to 8 instruments. The most recent instruments also have a Human Interface Device (HID) direct communication mode enabling them to connect to a computer as a peripheral keyboard and transmit the values in any software application. (Use without dongle with Windows 10 possible with Sylcom)
- Connection to our multi-functional display units
Our D300S display unit can be fitted with a Sylvac Bluetooth® dongle in order to connect up to 8 Sylvac Bluetooth® instruments. The same applies to the D400S unit to which one or several (up to 12) M-Bus BT modules can be connected enabling a multitude of Sylvac Bluetooth® instruments to be connected to it.
- Connection to a smartphone or tablet
Our instruments can be connected directly to a smartphone and to tablets running Android or iOS. Sylvac demonstration apps are available from the Google Store and the Apple Store. These apps demonstrate the connection of one of our instruments with Bluetooth® technology to one of these peripheral devices. As this area is evolving very rapidly, please refer to our website for the latest information.

Data transmission and software

CONNECTIONS

IOT Ready connection profiles

The second generation of Sylvac Bluetooth® Technology equipped all Smart instrument for more possibilities and easier connection.

- SIMPLE Profile (default mode)
 - Instruments can be connected to several devices, but only one active connection and on a «first come, first served» basis.
 - Best solution if different people share the same instrument which has to be connected to several devices.
 - Avoid pairing manipulations at each device change.
- PAIRED Profile
 - Several instruments connected and locked (paired) to a specific device, which allows to have a lot of control stations side by side in a small area.
 - Best secured solution for a permanent control station.
 - Avoid instruments connecting to the wrong device.
 - Device-Instrument link has to be reset in order to connect to another device.
- HID Profile (Human Interface Device)
 - The instrument can be connected only to one specific device, but device can accept multiple input devices (keyboards, bar code reader, etc.).
 - Emulate a keyboard action.
 - Write and send data to any software/device without any further settings.
 - Device-Instrument link has to be reset in order to connect to another device.

Wired connections

- Wired Connections
Despite all the benefits described above, it could be that Bluetooth® Wireless technology is not the most appropriate solution for a specific application. We are of course able to provide a connection cable fitted either with an RS232 or USB connector for every Sylvac instrument with a data output. Our standard cables are 2 or 3 meters in length depending on the models. On request they can be delivered in special lengths of up to 15 metres for RS232 cables and up to 7 metres for USB cables.

Use of a digital test indicator without its battery

In some cases, as for example when a digital test indicator is installed in a location that is difficult to access, or if it is fitted on a non-stop operating machine, it may be advisable to replace the battery of the instrument with a special cable (Power) which will ensure both its power supply and the data transfer. Most of our digital test indicators offer this option and they are identified by the Power logo. Other digital test indicators, intended for connection to programmable logic controllers (PLC) also operate without a battery and their power supply is provided by the controller.

Please refer to the chapter on cables for details on the different cables available.

DATA TRANSFER

SYLCOM

Sylcom is the latest software product to be launched by Sylvac and has been designed to process information from instruments connected via Bluetooth® Wireless technology or via a USB cable. It creates an almost limitless number of display channels spread over one or several pages. Several display modes are available so that the status of the variable measured (GO/NG) can be visualised instantaneously. Sylcom can also be used to measure components sequentially, to collect all values simultaneously and to define a time interval in order to save values automatically. The data can be saved in Sylcom and then exported to an Excel file.

The concept is to offer a modular software application based on the specific functionalities required.

Free Sylcom LITE version on www.sylvac.ch

Available in **LITE** version of the software allowing to connect 1 instrument and 1 pedal (free), **Standard** version with standard functions allowing to connect up to 16 instruments or pedals, by USB cable (maximum 15) by Bluetooth® or by M-BUS modules., **PRO** version, allowing to connect up to 15 instruments by USB cable, up to 40 instruments by Bluetooth® and up to 128 instruments by M-BUS modules (total maximum 128 connected instruments). Several features such as control plans, monitoring, statistics and SPC export are available (60 days trial version available) and **Expert** version offering the same functionalities as the PRO version, but with the additional possibility of connecting up to 500 instruments via Bluetooth® with the «On the fly» mode, to communicate in the OPC-UA protocol and to automatically suggest tool corrections to some CNCs machines.

Your metrology partner for the new challenges ahead!

We hope that all the information described above has convinced you that Sylvac is not only a manufacturer of innovative and high-quality measuring instruments but also the partner you need to help your quality control evolve towards the new industrial model that awaits us.

Applications

DATA TRANSFER

Vmux

This software may be considered as a virtual interface which assigns a COM port to instruments connected by wireless Bluetooth® transmission or by USB cable and then redirects the values from these instruments to any Windows software (SPC or other).

For the simplest applications Vmux simply exports the values into a selectable Excel file. Extremely user-friendly, Vmux is an excellent replacement for the multiplexer boxes used in the past.

A free version Vmux Lite, limited to eight connections can be downloaded free of charge from our website. The full version of Vmux with the capacity to connect up to 32 instruments (max. 16 instruments with wireless Bluetooth® transmission) can be ordered from the Sylvac distributor in your country.

DIGITAL INDICATORS S_DIAL

Digital comparators have contributed greatly to Sylvac's success and reputation for decades. Sylvac can therefore be considered the world leader in this type of instrument, thanks to the wide range of products available, but also because of the specifications and advanced functions offered by the dial indicators that you will find in this chapter.

GENERAL CHARACTERISTICS :

- **Powered by lithium battery type CR2032**
- **Absolute measuring system S.I.S**
- **Automatic sleep and wake-up**
- **mm/inch conversion on all models**
- **Working temperature +5° to +40°C**
- **Comparators supplied with interchangeable steel M2.5 contact point, with tungsten carbide ball Ø 2 mm**

Digital test indicator

S_Dial TEST Smart

DESCRIPTION

- First digital test indicator with integrated Bluetooth® system
- Instrument for checking roundness and flatness
- Data transfer by sending a request or by foot pedal
- Compact housing Ø 45 mm rotatable by 270°.
- Revolutionary mechanical construction, without gears or gears, which eliminates hysteresis error
- Digital display resolution 0.001 mm with analogue scale
- M1.4 stylus with Ø 2 mm tungsten carbide ball, swivelling and interchangeable
- Available in 3 versions :
 - Model with stylus length 12 mm, measuring range 0.8 mm
 - Model with stylus length 36 mm, measuring range 2.0 mm
 - Combination model for 12 and 36 mm styli (supplied with both styli), measuring range 0.8/2.0 mm
- Protected against liquids IP54

DISPLAY

- ❶ Direct mm/inch conversion
- ❷ Analog display
- ❸ Min/max/delta mode
- ❹ Analogic resolution display
- ❺ Bluetooth® technology

STANDARD DELIVERY

- Instrument according to technical specifications
- Lithium battery CR2032 included
- Quickstart
- Stem Ø 8 mm (905-2247)
- Clamping key for measuring button
- 2 contact points Ø2mm, 12.5 and 36.5mm (model 805-4332 only)

APPLICATIONS

Run-out measurement

Checking the alignment on milling machine.

Perpendicularity measurement with a S234 mounted on a Hi_Gage ONE

Mini digital indicators

S_Dial MINI Basic

DESCRIPTION

- Smallest digital comparator available on the market, with compact Ø 45 mm non-rotating housing
- New robust construction
- Ideal for integration into machines or various measuring fixtures
- Only one central button with favourite function to choose between recall of the preset or transmission of the value
- Selection of unit (mm/inch) and direction of measurement
- Data output «Power», works without battery when connected via cable
- Digital display resolution 0.01 or 0.001 mm
- Measuring range 12.5 mm
- Available in Protected or Standard execution
 - P version: IP67 with bellows-protected spindle, without lifting cap
 - S version: IP54, without bellows, with lifting cap

S_Dial WORK

DESCRIPTION

PLC

- Robust digital comparator with Ø 59.5 mm housing rotatable by 270°.
- Instrument for automation and robotics
- Large display resolution 0.01 mm or 0.001 mm with tolerance status indication by colour LEDs
- Three buttons, including the central button with selectable favourite function
- Wide range of functions, including MIN/MAX/DELTA
- Data outputs «Open connector» for using the instrument without batteries (powered by the device) and «Proximity».
- Selection of the communication protocol to be chosen between ASCII, MODBUS and ORBIT
- Measuring range selectable: 12.5 and 25 mm
- Special low or high pressure versions available on request
- Protection IP54 for the 0.01 mm resolution version and IP67 for the 0.001 mm resolution version

S_Dial PRO

DESCRIPTION

SMART

- Robust digital comparator with Ø 59.5 mm housing rotatable by 270°.
- Large display resolution 0.0001 mm (0.1 µm) with tolerance status indication by colour LEDs
- High accuracy over the entire measuring range thanks to an electronically corrected scale system with reference marks
- Measuring error less than 1.2 µm over 50 mm
- Three buttons, including the central button with selectable favourite function
- Wide range of functions, including MIN/MAX/DELTA
- Bluetooth®, Proximity» and «Power» data outputs allowing the instrument to be used without batteries when connected by this cable.
- Available with a fixing diameter of 8 mm and 25 mm for some models
- Measuring range of your choice: 25, 50 and 100 mm
- Available in standard pressure or low-pressure version without return spring for vertical use.
- Protection class IP51

Digital indicator testing stand M3

DESCRIPTION

- Set for the periodic calibration of analogue and digital comparators up to 50 mm stroke as well as for lever indicators
- Set consisting of the M3 bench that can be used vertically or horizontally, the reference instrument and the Sycopro II software integrating several international standards.
- Bench with rapid manual movement and fine final approach
- Available in 2 versions, with different reference instruments and different measuring ranges :
 - Set with capacitive touch probe paired with display unit, 10 and 25 mm (max. error 0.8 μm)
 - Set with precision dial gauge with integrated display, 25 and 50 mm (max. error 1.2 μm)
- Calibration according to the ABBE principle
- Real-time display of instrument status
- Creation of customised test certificates

TECHNICAL SPECIFICATIONS

Series 808 stands for digital indicators and probes

- Made at Sylvac in Switzerland
- Superior quality compared to the Asian tables generally found on the market
- Reinforced column Ø 25 or 35 mm with precision measuring arm for excellent parallelism and high rigidity reducing the measuring error generated by the support.
- Clamping diameter 8 mm and 25 mm (for fixing S_Dial PRO dial gauges)
- Ring for fine adjustment of the vertical position
- Grade 00 granite base

CALIPERS

The 80s, another era, another way of living, thinking and, above all, working. It was then that the first Sylvac digital calipers were born, which revolutionised measurement, until then carried out exclusively with the help of mechanical verniers. The digital calipers brought more precision and greater ease of use. Over the years, our range has been enriched by the numerous models presented in this chapter.

GENERAL CHARACTERISTICS :

- **Accuracy according to ISO13385-1**
- **Powered by lithium battery type CR2032**
- **Absolute measuring system S.I.S**
- **Automatic sleep and wake-up**
- **mm/inch conversion on all models**
- **Working temperature +5° to +40°C**

S_Cal EVO

DESCRIPTION

CARBIDE

- High-quality ergonomic caliper with integrated Bluetooth® system
- Outer jaws featuring soldered carbide pads
- 3.5 mm thick hardened and ground stainless steel frame
- New extra-large display unit with 11.5 mm high digits
- Convenient push button for sending data that can also be programmed with another function
- Memorising the home position even when the instrument is switched off
- Available in the following executions :
 - Measuring range 150 mm with rectangular depth rod
 - Measuring range 150 mm with cylindrical depth rod
 - Measuring range 200 mm with rectangular depth rod
- Protection class IP67
- Wheel available as an option

Simple and intuitive functions

S_Cal EVO

DESCRIPTION

SMART MICRON

- High-quality ergonomic caliper with micron display and integrated Bluetooth® system
- Hardened and finely ground stainless steel frame, thickness 3.5 mm
- New extra-large display unit, resolution 0.001 mm, digits height 11.5 mm
- Preset function to measure by comparison
- Convenient push button for sending data that can also be programmed with another function
- Memorising the home position even when the instrument is switched off
- Available in the following executions :
 - Measuring range 150 mm with rectangular depth rod
 - Measuring range 150 mm with cylindrical depth rod
- Protection class IP67
- Delivered with calibration certificate
- Wheel available as an option

Ultra light caliper

UL4

DESCRIPTION

- Ultra-light, large callipers with integrated Bluetooth® system
- Frame made of special aluminium profile reinforced with 4 stainless steel guide rods
- New XXL display unit with digits 20 mm high
- Three buttons, including the central button with selectable favourite function
- Measuring force control device
- Long outer jaws 200 mm with measuring part made of hardened steel 124 x 8 mm coated with titanium nitride (TiN)
- On request, our UL4 callipers with jaws up to 400 mm long are available (please specify when ordering).
- Lever-lockable movable left jaw
- Removable upper studs with hardened metal pin Ø 5 mm for internal measurements
- Additional data output Proximity
- Measuring range 400 to 3000 mm
- Calibration certificate
- Protection class IP67

Ultra light digital scale

UL D4

DESCRIPTION

- Ultra-light, large linear ruler with integrated Bluetooth® system
- Frame made of special aluminium profile reinforced with 4 stainless steel guide rods with fixing holes
- New XXL display unit with digits 20 mm high
- Three buttons, including the central button with selectable favourite function
- Supplied with a drive bar that can be positioned at the top or bottom of the display.
- Additional data output Proximity
- Measuring range 1000 and 3000 mm
- On request, several rulers can be joined together to increase the measuring range.
- Protection class IP67

Ultra light caliper

UL4

STANDARD DELIVERY

UL4 Standard

- Instrument according to technical specifications
- Lithium battery CR2477 included
- Calibration certificate for UL up to 3000mm
- Upper internal measurement anvil (811-2323 - 2pcs)
- Universal base 811-2301
- Instruction manual

UL4 Special Jaws Type A

- Instrument according to technical specifications
- Lithium battery CR2477 included
- Special long jaws Type A (811-2316-99 or 811-2317-99)
- Length of jaws to specify when order (max. 400mm)
- Instruction manual

UL4 Special Jaws Type C

- Instrument according to technical specifications
- Lithium battery CR2477 included
- Special long jaws Type C (811-2319-99)
- Length of jaws to specify when order (max. 300mm)
- Instruction manual

Ultra light caliper

STANDARD DELIVERY

ULH4

- Instrument according to technical specifications
- Lithium battery CR2477 included
- Calibration certificate for UL up to 3000mm
- Universal base 811-2301
- Anvil holder 811-2302
- Long cylindrical anvil Ø8x80mm (811-2324)
- Instruction manual

APPLICATIONS

Internal measure with UL4

External measure with UL4

MICROMETERS

Historically, the micrometric screw was invented by William Gascoigne in the 17th century and it was Jean-Laurent Palmer who applied the principle to the measurement of small distances in 1848. Another classic length-measuring instrument, the micrometer provides greater precision than the caliper. Whereas a drum lathe generally represents a spindle displacement of 0.5 mm, Sylvac had the brilliant idea of developing revolutionary fast-feed micrometers in various versions, which can be discovered in this chapter.

GENERAL CHARACTERISTICS :

- **Accuracy according to DIN 863 / ISO 3611**
- **Powered by lithium battery type CR2032**
- **Absolute measuring system S.I.S**
- **Automatic sleep and wake-up**
- **mm/inch conversion on all models**
- **Working temperature +5° to +40°C**

Professional micrometer

DESCRIPTION

CYLINDRICAL Ø6.5

- High-speed micrometer with non-rotating spindle
- Linear spindle feed 10 mm per revolution
- Measuring range greater than traditional micrometers
- Tungsten carbide measuring anvils Ø 6.5 mm
- Display resolution 0.001 mm
- Ratchet system cancels operator influence and guarantees excellent repeatability
- Switchable measuring force 5 or 10 N for the 0-30 mm model
- Proximity data output
- Measuring range up to 161 mm
- Protection class IP67

Measuring surface

SMALL & MID-SIZE INSTRUMENTS

This chapter brings together various instruments, some of which may seem unusual at first glance, but which have provided a vital solution for clients for whom mistakes are forbidden. The star of this section is undoubtedly our set of digital thickness gages, which is a marvellous illustration of Sylvac's boundless ingenuity. You will also find other instruments such as an angle protractor, micrometric screws and depth gages, all of which can be connected either via Bluetooth® or cable.

GENERAL CHARACTERISTICS :

- **Powered by lithium battery type CR2032**
- **Absolute measuring system S.I.S**
- **Automatic sleep and wake-up**
- **mm/inch conversion on all models**
- **Working temperature +5° to +40°C**

Digital thickness gage

Feeler Gage Smart

DESCRIPTION

- World novelty, the first set of thickness gages with digital display of the total thickness of all feelers removed from the case.
- Integrated Bluetooth® system
- Developed for sensitive applications (aerospace, automotive, defence, etc.) where error is prohibited
- Available with steel feelers with thickness in mm or inches.
- Accuracy of feeler thickness according to DIN 2275: 2014-03 class TC1
- Sets in mm with 19 or 20 feelers, useful length 99 mm
- Set in inch with 14 feelers, usable length 3.9"
- Individual replacement feelers available on request
- Display resolution 0.01 mm and .001".
- IP65 protection

Transmissions of the value or one or several gages

Transmission of data into any software or application, without dongle. Can be used with Microsoft (W7, 8, 10), Android or Apple.

STANDARD DELIVERY

- Instrument according to technical specifications
- Lithium battery CR2032 included
- Instruction manual
- Lanyard

APPLICATIONS

Gap measurement

Gap measurement

Gap setting

Valve adjustment

Data transmission via HID

Digital micrometer screws

S_Screw Smart

DESCRIPTION

- Digital micrometric screws with $\varnothing$ 45 mm dial rotatable by 270° allowing use in the X or Y axis
- Integrated Bluetooth® system
- Developed mainly to equip X-Y measuring tables (measuring microscopes)
- Display resolution 0.001 mm
- Non-turnable spindle $\varnothing$ 6.5 with hard metal tip
- Fixing by $\varnothing$ 12 h6
- Steering wheel $\varnothing$ 50 mm
- Additional data output Power
- Measuring range 25 and 50 mm
- IP54 protection

Use on measuring microscope

Handwheel use

Protractor

Protractor Smart

DESCRIPTION

- Protractor with integrated Bluetooth® system
- Housing Ø 59.5 mm rotatable by 270°.
- Large display with colour LED tolerance status indication
- Angular value display in : Degrees, resolution 0.01° / Degrees/minute, resolution 0°01' / Radian, resolution .0001
- Three buttons, including the central button with selectable favourite function
- Ruler length 200 mm (other lengths available as an option)
- Measuring range: 1 x 360°, 2 x 180°, 4 x 90°.
- Additional data outputs Proximity and Power
- Protection class IP54

Protractor

Protractor Smart

820-2450	Scale L 500 mm
820-2460	Stand for vertical application and small angular measurements
820-2461	Square for small angular measurements

APPLICATIONS

Measurement with accessory type 820-2460

Standard measurement

Measurement with accessory type 820-2461

Depth gage

S_Depth PRO Smart

DESCRIPTION

- Depth gages equipped with a compact Ø 45 mm rotating housing and integrated Bluetooth® system
- 100 mm wide bridge with holes for the attachment of an additional wider bridge
- Flat pole 20 x 5 mm in hardened and ground stainless steel
- Cursor locking screw
- Three buttons, including the central button with selectable favourite function
- Input of the constant for cylindrical or spherical touch button (with accessory 805-6103) for groove height measurement
- Digital display resolution 0.01 mm
- Measuring range 300 and 600 mm
- Additional data output «Power», works without battery when connected via this cable
- Interchangeable measuring key M2.5
- IP54 protection

Digital LCD display with 8.2mm high digits and 270° rotating display

Automatic reference switching (REFI/ REFII) by the measurement inversion

Cursor locking screw

External power supply and output cable Power to USB (926-6821) or RS232 (905-4516)

Base 100mm with clamping system for additional bases.

M2.5 ball key Ø2mm as standard (other keys as accessories)

INTERNAL MEASURING INSTRUMENTS

It is often difficult to find a solution perfectly adapted to the measurement of internal dimensions which can be very complex. Sylvac and Bowers joined forces several decades ago to offer the most comprehensive range of instruments on the market for virtually any application. Whether you need to measure very precise, blind, deep bores or other internal elements such as grooves, threads, flutes, etc., you will certainly find the key to your problem in this chapter.

GENERAL CHARACTERISTICS :

- **Powered by lithium battery type CR2032**
- **Absolute measuring system S.I.S**
- **Automatic sleep and wake-up**
- **mm/inch conversion on all models**
- **Working temperature +5° to +40°C**

Bore gauges

Xtreme 3

DESCRIPTION

SMART

- New unit with integrated Bluetooth® system
- Display resolution 0.001 mm, digit height 9 mm
- Storage of the size of 4 calibration rings
- Interchangeable measuring heads with hard metal 2 points (Ø 2 to 6 mm) and 3 points (from Ø 6 mm) contact points
- Possibility to measure blind holes with the Ø 2 to 6 mm heads and from Ø 12.5 mm
- Instruments available in 2 versions:
 - XTD : unit with micrometric drum
 - XTH : pistol type unit, with quick retraction handle
- Measuring range Ø 2 to 300 mm
- Optional extensions available for measuring deep holes up to 2000 mm
- Calibration ring and certificates included with each individual instrument
- Special measuring heads for threads, grooves, splines, etc. available on request
- Additional Proximity data output
- Each instrument is delivered in a wooden box containing all items
- IP67 protection

Output cable Proximity to USB (926-6721) or RS232 (926-6723) and Bluetooth® Wireless technology

Interchangeable heads

Xtreme SETS

DESCRIPTION

SMART

- Sets available in XTD and XTH versions
- The XTH sets are delivered with the pistol type unit, the heads necessary to cover the measuring range of the set as well as the calibration rings and certificates.
- The XTD sets are delivered as desired:
 - Together with the drum unit, the heads required to cover the range of the set, as well as the rings and calibration certificates
 - With a complete instrument (unit and head) for each measuring range, as well as calibration rings and certificates
- Measuring range Ø 2 to 200 mm (up to Ø 300 mm on request)
- Each set is delivered in a wooden box containing all items

High accuracy internal measurement

Ultima

DESCRIPTION

- High-precision internal measuring set consisting of an ergonomic handle with release lever, a absolute digital probe mounted in the handle, measuring head, external display unit for reading the value, calibration ring and certificates
- Interchangeable measuring heads (quick system) 2 points (Ø 2 to 6 mm) and 3 points (from Ø 6 mm). XT measuring heads are not compatible with the Ultima system.
- Tungsten carbide measuring heads up to Ø 10-12 mm and ceramic measuring heads from Ø 12-14 mm.
- Possibility to measure blind holes from Ø 12 mm upwards
- Display resolution 0.001 or 0.0001 mm (1 µm or 0.1 µm)
- Measuring range Ø 2 to 310 mm
- Available with special measuring heads for threads, grooves, flutes, etc. on request
- Available as an individual instrument or as a set
- Delivered in a wooden box containing all items

High accuracy internal measurement

Special applications

DESCRIPTION

- XTD or XTH instrument equipped with a special measuring head manufactured according to the particular item to be measured
- These instruments are subject to a feasibility analysis and a preliminary price offer based on the design of the component to be measured.
- We can measure the following elements :
 - Grooves, notches
 - Threads from M4 (all types)
 - Splines
 - Deep holes
 - etc.
- Delivery time 4-8 weeks

Grooves and slots head

Threads measuring head

Spherical anvils head

Ball screw head

HEIGHT GAUGES

Hi_Cal, Hi_Gage ONE & Z5

An indispensable instrument in the workshop, the measuring column allows you to quickly measure heights, distances, internal and external diameters, centre-to-centre distances or even particular points (minimum or maximum). In this chapter you will find a range of columns comprising 3 models, from the simplest to the most complete, all connectable via Bluetooth® for maximum user convenience.

GENERAL CHARACTERISTICS :

- **Powered by a CR2032 lithium battery for Hi_Gage ONE columns 220V power supply for other models**
- **mm/inch conversion on all models**
- **Working temperature +5° to +40°C**

Height gauge

Hi_Gage ONE Smart

DESCRIPTION

- Measuring and tracing column with integrated Bluetooth® system
- Ergonomic cast iron base for good sitting posture
- Self-locking rapid transfer system and fine adjustment screws
- New, very robust double guide system
- Case Ø 59.5 mm with display resolution 0.01 mm
- Three buttons, including the central button with selectable favourite function
- Wide range of functions, including MIN/MAX/DELTA
- Possibility to enter the key constant for measuring diameters and centre-to-centre distances
- Light indication validating the probing
- Additional data outputs Power and Proximity
- Measuring range 400 and 600 mm
- Supplied with tracing probe, ball probe Ø 8 mm and clamping stem for lever indicator

Height gauge

Hi_Cal V2 Smart

DESCRIPTION

- 1D workshop measuring columns with integrated Bluetooth® system and battery
- Perfectly suited for the rapid measurement of heights, depths, thicknesses, internal and external diameters, centre-to-centre distances, etc.
- Value of the key constant stored in memory even after the instrument is switched off.
- Compact and lightweight columns are easy to handle and do not require an air cushion.
- New construction with simplified guidance systems to ensure reliability
- Motorised measuring button movement with encoder integrated in the system eliminating operator influence
- Variable and progressive displacement speed according to the pressure exerted on the paddle
- Automatic pre-positioning of the key by the Sylcom software, allowing a reliable and fast measuring sequence
- Fixed key holder system with interchangeable Ø 3 mm ruby ball button
- Display resolution 0.01 / 0.001 / 0.0005mm
- Very small cast iron base equipped with 3 ground hard metal runners, requiring only a small working space
- Lower button with selectable favourite function
- Wide range of functions, including MIN/MAX/DELTA
- Light and sound indication to validate the probing process.

Switch on and measure!

APPLICATIONS

Depth measurement with accessories 930-2108 and 930-2105

Depth measurement with accessories 930-2108 and 905-2204

Internal measurement with ruby ball probe Ø 3 mm, 930-2101 (standard)

Internal groove measurement with accessories 930-2108, 930-2110 and 905-2207

Taking the probe constant value with the setting bloc 930-2002 (standard)

Heights and thicknesses measurements with the standard probe 930-2101

Internal groove measurement with accessories 930-2108, 930-2110 and 905-2205

External diameter measurement with the standard probe 930-2101

Min/Max/Delta measurements

Height gauge

Z5

DESCRIPTION

- 1D workshop measuring column with Trimos technology
- Perfectly suited for the rapid measurement of heights, depths, thicknesses, internal and external diameters, centre-to-centre distances, etc.
- Revolutionary crank handle offering the user the choice of manual or motorised carriage movement
- Lateral probe holder allows the use of extra-long keys (up to 400 mm) with excellent repeatability
- XL display module with 0.001 mm resolution and intuitive functions
- Cast iron base with ergonomic handle with air cushion control knob
- Measuring force electronically adjustable (0.75-1.5 N)
- Rechargeable battery with 12-hour working autonomy
- Measuring range 711 mm (1023 mm with extension)
- Supplied with interchangeable Ø 4 mm ruby ball button
- USB/RS232 data output
- Optionally, a Sylcom-compatible Bluetooth® communication accessory can be ordered as an accessory

PROBES, DISPLAY UNITS AND INTERFACES

An important chapter covering our measuring probes, display and multifunctional units as well as interfaces and multiplexers. This technical equipment is also used for control stations in workshops, laboratories or integrated in machines and automatic production lines controlled by a programmable logic controller. The most diverse solutions are presented to you in this section of our catalogue.

GENERAL CHARACTERISTICS :

- **220V power supply for all units**
- **mm/inch conversion on all models**
- **Working temperature +0° to +40°C**

Measuring probes

Absolute digital measuring probes

P12D

DESCRIPTION

- High-precision measuring probes with patented measuring system combining inductive and capacitive technologies
- Absolute system with integrated electronic error correction (no more pairing with the unit or computer) guaranteeing high accuracy over the entire measuring range
- Extremely robust ball bearing guide guarantees a minimum of 100 million cycles (30 millions with radial load)
- Stainless steel body Ø 12 mm, fixing diameter 8 h6
- Measuring range 12.7 mm
- Available in 3 versions: Standard, Work and Pro
- Measuring force selectable: low or very low for vertical use only
- Output signal in direct digital format without the need for a converter
- Reading speed up to 100 values per second depending on configuration
- Straight cable length 2m with either USB or M8 connector
- Cable outlet protected by a spring which can be be tilted by 90° with the optional accessory 801-5101
- Protection class IP54

STANDARD DELIVERY

- Probe according to technical specifications
- Cable 2 m
- Stainless steel contact point with tungsten carbide ball Ø 2 mm
- Quickstart
- Calibration certificate

APPLICATIONS

Probe P12D USB connected to a PC, measures displayed by Sylcom.

Probe P12D USB connected to a D300S (maximum resolution 0.1μm)

Probes P12D M8 connected to a D62S.

Inductive measuring probes

DESCRIPTION

- Inductive pencil-type measuring probes with stainless steel body $\varnothing 8$ h6 over the entire length
- Particularly suitable for comparison measurements due to their excellent repeatability (0.15 μm)
- Half-Bridge Output Type
- Reading speed up to 3900 values per second, depending on configuration
- Extremely robust ball bearing guide guarantees a minimum of 10 million cycles when the probe is not subjected to a lateral force
- Available in 2 versions :
 - Spring pressure, measuring force 0.7 N
 - Pneumatic thrust, the probe is retracted when it is not supplied with air (1 to 3 bar), pressure influencing the measuring force (0.4-0.7 N)
- Measuring range ± 2 mm and ± 5 mm
- Resolution up to 0.0001 mm (0.1 μm)
- Cable outlet protected by a spring which can be tilted by 90° with the optional accessory 901-5110
- PUR cable length 2 m.
- IP65 protection with Viton® bellows

Standard	N	0.7	0.7 / 0.4 bar - 2.6 / 1 bar	0.7	0.7 / 0.4 bar - 2.6 / 1 bar

Tolerance ± 20%, measuring probe in middle course, outgoing spindle.

PNEUMATIC PROBES

Pneumatic probes are fully retracted when they are not supplied with air. For continual reliable operation and to maximise working life, the air supply should be clean and dry. 60% maximum relative humidity, filtered to better than 2µm particle size. Air pressure : 0.4-0.8 bar, don't go over 0.8 Bar because the rubber boot can be damaged.

Inductive measuring probes

STANDARD DELIVERY

- Probe according to technical specifications
- Cable 2 m
- Stainless steel contact point with tungsten carbide ball Ø 3 mm (905-2204)
- Calibration certificate

APPLICATIONS

Inductives probes connected to a D70I.

Inductives and Solartron probes connected to a M-Bus modul coupled with D400S.

Inductives probes connected to a M-Bus modul coupled with D300S.

Capacitive measuring probes

DESCRIPTION

- Capacitive measuring probes
- Measuring system for high accuracy over the entire measuring range
- Sliding bearing guide guarantees a minimum of 10 million cycles when the probe is not subjected to a lateral force. Not suitable for high load applications.
- Available in 2 versions :
 - Spring-loaded thrust
 - Spring-loaded with integrated vacuum lift (V-version)
- Measuring range 5, 10 and 25 mm
- Resolution up to 0.0001 mm (0.1 μm)
- Measuring force selectable, low, standard or high
- Fixing diameter 8 h6
- Straight or 90° cable outlet (L version)
- Interchangeable PUR cable length 1.5 m.
- IP54 protection with Viton® bellows (S version)

D70S/H/I

DESCRIPTION

- Compact display units for measuring probes
- Extremely robust aluminium housing
- Available in 3 versions with 2 probe inputs :
 - D70H = for HEIDENHAIN touch probes type ST/MT
 - D70I = for SYLVAC inductive probes
 - D70S = for SYLVAC capacitive probes
- Large 4.3" colour touch screen with intuitive functions
- Display in different modes (possibility to display the 2 values simultaneously)
- Resolution up to 0.0001 mm (0.1 μm) and 0.00001 mm (0.01 μm) for version D70H
- Extensive choice of functions including MIN/MAX/DELTA and channel combinations
- Connector for optional pedal 904-4101 (D70S) and 904-4102 (D70H and D70I)
- Powered by USB cable, the unit is detected as an «external keyboard» when connected to the computer, allowing for easy data transfer.
- USB and RS232 data outputs
- Connector for Mbus
- IP54 liquid-proof front panel for workshop use

D70A

DESCRIPTION

- Compact display units for air measurement equipped with a digital pressure sensor acting as a converter to convert a pressure value into a highly accurate dimensional value.
- Available in 2 versions :
 - D70A1 with one air inlet
 - D70A2 with two air inlets
- Features similar to the other D70 units, but with some special features specific to air measurement:
 - Each inlet is equipped with a throttle to define the volume of air entering the unit according to the specificities of the connected air buffer.
 - Calibration of the unit with 2 or 3 standards
 - Possibility to activate an alarm in case of a change in supply pressure or a change in temperature
 - Unit fully configurable by QR code
- Display resolution up to 0.00001 mm (0.01 μm)
- Requires no maintenance or calibration
- Compatible with all brands of air pads
- Delivered with a set of 6 different choke valves.
- Connector for M-BUS modules
- IP54 liquid-proof front panel for workshop use

Air measurement

* plug and air gages

POSSIBILITIES OF CONNECTION

Multiplexer unit

D200S

DESCRIPTION

- Unit for connecting up to 8 SYLVAC capacitive probes and visualising the results on a PC (software included) or exporting the data.
- Housing made of aluminium profile and ABS plastic that can be placed vertically or horizontally
- 8 inputs for capacitive sensors P5, P10 and P25
- I/O terminal block with opto-coupled inputs/outputs
- Free software to view up to 24 channels simultaneously, create channel combinations, perform dynamic measurements or create sequences.
- Up to 3 units can be connected to the software, so that up to 24 probe inputs can be used.
- Possibility to connect a D110V unit for lifting the vacuum probes
- 2 connectors for optional pedal 904-4101
- USB and RS232 data outputs
- IP50 protection

Output cable USB to USB (804-1210) or output cable RS232 to RS232 (925-5609)

8 inputs for Sylvac probes

Software allowing the treatment of up to 24 channels simultaneously (bargraph)

Tolerance indicators

Connection by USB (2x) or RS232 (1x)

Opto-coupled digital output rack

Connection by USB (2x) or RS232 (1x)

Multiplexer unit

DESCRIPTION

- Multifunctional units for connecting both capacitive probes and handheld instruments connected via USB cable or Bluetooth®
- Housing made of aluminium profile and ABS plastic
- Large 8.5" colour touch screen
- Available in several versions with different connection possibilities :
 - 804-1300: 2 inputs for capacitive sensors and 6 USB inputs
 - 804-1310: 4 inputs for capacitive sensors and 6 USB inputs
 - 804-1320: input for M-BUS modules and 6 USB inputs
 - 804-1330: input for M-BUS modules, 2 inputs for capacitive sensors and 6 USB inputs
 - 804-1340: input for M-BUS modules, 4 inputs for capacitive sensors and 6 USB inputs
- Intuitive interface to create up to 64 pages with up to 8 display channels per page, create channel combinations, perform dynamic measurements or create sequences
- Display resolution up to 0.0001 mm (0.1 µm)
- I/O terminal block with opto-coupled inputs/outputs
- 2 connectors for optional pedal 904-4101
- VGA output for external display connection
- Ethernet RJ-45 connector
- USB and RS232 data outputs
- IP65 liquid-proof front panel for workshop use

Output cable USB to USB (804-1210) and output cable RS232 to RS232 (925-5609)

* Dongle Smart required

DESCRIPTION

- Multifunctional unit for connecting up to 99 Sylvac instruments of different makes via M-BUS modules (the unit itself has no inputs for the instruments)
- Ideal for multi-dimensional control stations and automation applications
- Robust aluminium housing with table stand or can be integrated into a panel
- Large 7" colour touch screen
- Displays up to 32 channels simultaneously (on the same screen) or spread over several pages (max. 32)
- Intuitive interface for creating channel combinations, performing dynamic measurements, editing mathematical formulas or creating sequences
- Up to 128 room configurations can be stored and up to 30,000 values can be saved per configuration or saved on a USB stick.
- Basic SPC functions (Cp, Cpk, run chart, Pareto, histogram with Gauss curve, etc.).
- Display resolution up to 0.0001 mm (0.1 μ m)
- Connectors for optional pedal 904-4101
- USB and RS2323 data outputs
- ASCII and Modbus communication protocols
- IP54 liquid-proof front panel for workshop use

Large touchscreen 7" protected against liquids IP65

Panel mounting
(accessory 804-2202)

Output cable USB to USB (804-1210) or RS232 (925-5609)

Multiplexer unit

D302 / D304

DESCRIPTION

- Multiplexing units for connecting Sylvac capacitive probes to a computer or a PLC
- 2 or 4 inputs for capacitive sensors P5, P10 or P25
- Aluminium and plastic housing
- Available in 2 versions :
 - D302/D304 allowing the reading and conversion of the position value of Sylvac capacitive probes up to a resolution of 0.1µm. The results are available on a USB port and on a MODBUS RS485 port.
 - D302a/D304a equipped with an extension to provide analogue voltages corresponding to the position of the probes, with a range of +/-10V and a resolution of up to 0.025 mV
- Baud rate 10-20 measurements per second depending on resolution
- Up to 16 D304 units can be coupled together to have a maximum of 64 probe inputs.
- IP40 protection

Output cable RS485 to RS485 (925-5609)

Output cable mini-USB to USB (926-6001)

Multiplexer unit

M-Bus

DESCRIPTION

- Interfacing modules for connecting Sylvac instruments (hand instruments and probes) as well as instruments of other brands to the D300S and D400S units, to a computer (Sylcom Advanced and Pro) or to a PLC
- Manufactured from an anodised aluminium profile for mounting on a DIN rail, our M-Bus modules are suitable for use in harsh industrial environments.
- RS485 data output
- The following modules are available:

804-2160 MB-RS module

Master module for communication with the computer or PLC via USB or RS232.

804-2104 Module MB-4C

Module with 4 connectors for Sylvac capacitive probes.

804-2107 Module MB-4I / 804-2108 Module MB-8I

Module with 4 or 8 connectors for Sylvac inductive probes. These modules are also suitable for Half-Bridge probes from other manufacturers using the Tesa protocol (Mahr, Dong-Do, Tesa, Peter Hirt, etc.).

804-2122 Module MB-2S

Module with 2 connectors for Heindenhein incremental probes 11µmA/1VPP .

804-2190 Module MB-AG

Module with one inlet for tampon or air ring, supplied with a set of 6 different throttles.

804-2140 MB-PS module

Additional power supply module that may be required when a large number of M-BUS modules are connected together.

804-2130 MB-I/O module

Module with 8 opto-coupled inputs/outputs for communication with a PLC or peripherals such as an alarm signal. It is possible to connect several I/O modules in order to have up to 32 inputs/outputs.

804-2105 Module MB-4P

Module with 4 connectors type M8 for Sylvac P12D digital probe.

804-2111 Module MB-1D / 804-2114 Module MB-4D

Module with 1 or 4 Digimatic type connectors for Mitutoyo instruments and instruments of other Digimatic compatible brands.

804-2180 MB-BT module

Module for connecting 8 Sylvac Smart Bluetooth® instruments (only compatible with D400S unit).

804-2170 MB-TP module

Module with one input for a thermocouple or PT100 temperature sensor/probe.

804-21xx MB-NET module

Module with Ethernet connector to transfer values to a server (only compatible with D400S unit).

MEASURING BENCH PS15/16/17

Benefiting from long experience acquired through contact with our demanding Swiss watchmaking customers, Sylvac has developed a range of measuring benches enabling most small external and internal dimensions to be checked precisely and quickly.

As the miniaturisation of components nowadays affects all industrial fields, Sylvac is in a position to provide a reliable solution with these instruments for the most unlikely of applications.

GENERAL CHARACTERISTICS :

- **PS15 and PS17 measuring benches to be equipped with a digital indicator or a measuring probe**
- **PS16 V2 measuring benches with integrated display**
- **Powered by lithium battery type CR2477/CR2032 (PS16 V2)**
- **mm/inch conversion on all models**
- **Working temperature +5° to +40°C**

Bench table

PS15

DESCRIPTION

- Horizontal precision bench for measuring small external dimensions
- Can be equipped with either a digital digital indicator or a Sylvac measuring probe.
- Robust cast iron construction
- 2 ergonomic levers for moving the movable axis with ball-bearing guide
- Compatible with Sylvac Ø 1.5 mm and Cary type anvils
- Supplied with hard metal measuring anvils Ø 1.5 mm
- Adjustable measuring force 0.3-1.0 N
- Measuring capacity 20 mm, measuring range 10 mm
- Wide choice of measuring anvils and support tables

STANDARD DELIVERY

- Instrument according to technical specifications
- Instruction manual
- Measuring anvils Ø 1.5 mm (908-2175)
- Allen anvils 2 and 2.5 mm
- Dust cover

Bench table

PS15

DESCRIPTION

- Measuring bench similar to the horizontal bench but prepared for vertical use, with support base and levers positioned to the left and right of the bench.
- This bench is generally equipped with either a flat round table 908-2165 or a rotary hole table 908-2172 with 25 bores $\varnothing$ 0.2 to 5 mm for measuring shoulder heights. These tables are to be ordered separately
- Supplied with hard metal measuring anvils $\varnothing$ 1.5 mm

TABLES, PLATES AND LAPPING

N°	Designation	PS15BH	PS15BV / BV+
908-2170	Supporting table adjustable in XYZ	•	
908-2160	Supporting table with fine adjustment XYZ	•	
908-2161	Supporting table with fine adjustment Z	•	
908-2166	Floating table	•	
908-2172	Rotating table with 25 bores		•
908-2165	Plain table only		•
908-2162	Cylindrical plate with 25 bores from 0.2 to 5 mm		•

ACCESSORIES

N°	Designation	PS15BH	PS15BV / BV+
908-2198	Replacement lapping stone for 908-2199	•	
908-2199	Lapping device (3 stones and lapping liquid included)	•	

Lapping device

- Device for lapping the anvils on the PS15 BH, PS16 V2 and PS17 measuring benches, enabling perfect parallelism of the anvils for greater measuring accuracy.
- Set consisting of a movable element with linear guide and a motorised rotary drive system for the honing stone
- Delivered complete with 3 honing stones and a bottle of honing liquid.

ANVILS

Compatible anvils list at the end of this chapter.

Bench table

PS15

APPLICATIONS

XYZ table with plate with fine adjustment.

Measurement of small parts with PS15V+and rotation 25 holes support

Special anvils

Table with plate Ø 3 mm and fine adjustment. Indication of the height integrated.

Multi-functional measuring station

Gear measuring anvils. On request

Bench table

PS16 V2

DESCRIPTION

SMART

- Precision horizontal measuring bench for the measurement of external dimensions
- Robust cast iron construction
- New design with integrated Bluetooth® system
- Large display resolution 0.0001 mm (0.1 µm) with tolerance status indication by colour LEDs
- Three buttons, including the central button with selectable favourite function
- 2 ergonomic, position-adjustable levers for moving the movable axis with ball bearing guide
- The position of the levers can be used to adjust the backward movement of the mobile axis.
- Compatible with Sylvac Ø 1.5 mm and Cary type anvils
- Supplied with hard metal measuring anvils Ø 1.5 mm
- Adjustable measuring force 0.1-0.6 N
- Measuring range 25 and 50 mm
- Additional data outputs Power and Proximity
- Protection class IP67

Bench table

PS16 V2 LV

DESCRIPTION

SMART

- Measuring bench similar to the PS16 V2 bench, but equipped with a table and anvils assembly allowing to measure large internal diameters up to 74 mm.
- Originally designed for measuring watch cases, it is also suitable for measuring rings and thin parts.
- 2-point measurement with positioning of the workpiece in the measuring axis by 2 movable centring pins
- Table height adjustable by up to 20 mm (a mini dial indicator can be mounted on the table to check its movement)
- Available in 3 versions :
 - 808-1233: version for measuring internal diameters from 12 to 62 mm
 - 808-1234: execution for measuring internal diameters 24 to 74 mm
 - 808-1235: special version for measuring outside diameters 0 to 50 mm
- Supplied with 0.4 mm thick measuring anvils.

Bench table

PS16 V2 3-Points

DESCRIPTION

SMART

- Measuring bench similar to the PS16 V2 bench, but equipped with a table and anvils assembly allowing very small shallow internal diameters to be measured at 3 points, thanks to an electronic calculation function.
- Calibration using 2 rings supplied with the bench
- Table with fine height adjustment up to 3 mm with mini digital indicator for precise movement control
- Available in 5 versions :
 - 808-1335: version for measuring internal diameters 0.8 to 1.3 mm
 - 808-1336: execution for measuring internal diameters 1.3 to 2.5 mm
 - 808-1337: execution for measuring internal diameters 2.5 to 4 mm
 - 808-1338: execution for measuring internal diameters 4 to 8 mm
 - 808-1339: execution for measuring internal diameters 8 to 12.5 mm
- It is possible to obtain the placemats and anvils separately and to change them according to the dimensions to be measured, but this delicate operation requires a certain amount of dexterity.

PS16 V2

APPLICATIONS

Internal measurement in 2 – points with auto-centering of the part on LVS 50

External measurement with anvils Ø 6.5 and XYZ table

Table and anvils for internal measurement in 3 - points 1.3 - 2.5 mm

Table with adjustable plate (height). Different Ø plates available

Measurement of a small external diameter

Table and anvils for internal measurement in 3 - points 2.5 - 4 mm

Bench table

PS17 VS

DESCRIPTION

- Horizontal precision bench for measuring small external dimensions similar to the PS15 bench, but with a tailstock.
- Can be equipped with either a digital digital indicator or a Sylvac measuring probe.
- Robust cast iron construction
- 2 ergonomic levers for moving the movable axis with ball-bearing guide
- Equipped with a micrometric screw to control the recoil of the mobile axis.
- Compatible with Sylvac Ø 1.5 mm and Cary type anvils
- Supplied with hard metal measuring anvils Ø 1.5 mm
- Adjustable measuring force 0.2-1.0 N
- Measuring capacity 37 mm, measuring range 10 mm

OPTICAL MEASURING MACHINES

The strategic diversification operated by Sylvac a few years ago led us to the development of optical machines that meets today's needs perfectly. Our SCAN machines, designed for the ultra-fast measurement of cylindrical parts, allow a multitude of elements that previously required countless pieces of equipment to be inspected in the workshop in a matter of seconds, with measurements which could have taken several hours before. The fact that our SCAN optical machines can be integrated into automation lines and communicate with the controls of production machines is also a perfect match for the Industry 4.0 model.

In this chapter you will also find our VISIO range of video measuring machines, which enable most industrial components to be checked quickly using a direct live image of the part displayed in the software.

Optical measurement

SYLVAC-SCAN

DESCRIPTION

S25 & S25T

- Vertical optical measuring machine for static and dynamic measurement of various elements on small cylindrical parts.
- The parts can be mounted between two centres or held in place using various accessories. Attractive design and robust construction with many new features: New touch screen control panel for easy operation directly at the work-place, bi-telecentric optical system, high resolution camera, precision rotary headstock with integrated and protected daily standard, quick and easy accessory changing system, integrated temperature sensors, dynamic LED indicator of the general status of the measured part (GO/NG) and operator messages. Equipped with an exclusive optics tilting system.
- Machines specially designed to measure threads such as, parallel, trapezoidal, conical, round, square, conical, worms, ball screws, bone screws, dental implants, etc.
- Reflex SCAN+ concept for measuring parts without prior programming at the touch of a button
- Delivered complete with a PC and the Reflex SCAN+ software, which allows a multitude of elements to be measured easily and intuitively.
- The machine is delivered fully equipped «Automation Ready» as standard.

SYLVAC-SCAN

DESCRIPTION

F60 & F60T

- Vertical optical measuring machines for static or dynamic measurement of various elements on cylindrical workpieces.
- The parts can be mounted in between centers or held in place with various accessories.
- Attractive design and robust construction including many new features: Bi-telecentric optics, high-resolution CMOS camera, rotary headstock with integrated and protected daily calibration standard, quick and easy accessory changing system, integrated temperature sensors, LED indicator of the overall status of the measured part (GO/NG)
- The machine can be operated with the sliding door closed or open, with a light barrier automatically stopping the machine in case of intrusion.
- Reflex SCAN+ concept for measuring workpieces without prior programming at the touch of a button
- Available with tilt system (T) for true comprehensive thread measurement
- Delivered with a complete computer and the Reflex SCAN+ software allowing a multitude of elements to be measured in a simple and intuitive way.
- Machines that can be delivered in «Automation Ready» version on request

Unique helix tilting system by Sylvac, for more comprehensive thread measurements.

Optical measurement

SYLVAC-SCAN

DESCRIPTION

F60L & F60LT

- Optical machine similar to the F60, but in a long version, allowing measurements up to 500mm long and 64mm in diameter.
- Available in 2 versions :
 - 902-4062: SCAN F60L, measuring range Ø 0.5 to 64 mm, max. length 500 mm
 - 902-4067: SCAN F60LT, measuring range Ø 0.5 to 64 mm, max. length 500 mm, with tilting system Exclusive Sylvac up to an angle of 30° allows you to view and measure a multitude of additional elements on the threads, as their detailed profile is not visible unless viewed at the helix angle.
- Machines that can be delivered in «Automation Ready» version on request

SYLVAC-SCAN

DESCRIPTION

S145

- New high-capacity optical measuring machines for static and dynamic measurement of various elements on cylindrical parts.
- The parts can be mounted in between centres or held in place with various accessories.
- Attractive design and sturdy construction with many new features: bi-telecentric optical system, high resolution camera, precision rotary headstock with integrated and protected daily calibration standard, motorised tailstock, quick and easy accessory changing system, integrated temperature sensors, LED indicator of the overall status of the measured part (GO/NG), light barrier automatically stops the machine in case of intrusion, removable roof for easy loading of heavy workpieces up to 100 kg and exceptional precision and repeatability
- Delivered complete with a PC and the Reflex SCAN+ software, which allows a multitude of elements to be measured easily and intuitively.
- Machine delivered fully equipped «Automation Ready» as standard

SYLVAC-VISIO

DESCRIPTION

200 & 300 V3

- High quality ergonomic 2.5D optical (video) measuring system
- Extremely robust and durable construction with granite base and gooseneck
- Full HD camera with wide field of view for increased accuracy
- Manual X-Y table with quick-release and high-precision guidance
- Manual or motorised zoom depending on the version
- Lighting with ring light adjustable in segments, coaxial light and diascope light
- Delivered complete with a computer with touch screen and the very easy to use Reflex-Vista software offering a wide range of functionalities: Semi-automatic intuitive measurement, automatic edge detection, comparison with imported DXF contour
- Available in 3 versions :
 - 902-2210: VISIO 200, manual zoom, measuring range 200 x 100 x 150 mm
 - 902-2211: VISIO 200, motorised zoom, measuring range 200 x 100 x 150 mm
 - 902-2212: VISIO 300, motorised zoom, measuring range 300 x 200 x 150 mm
- Numerous accessories available

ACCESSORIES

			VISIO 200	VISIO 300
	902-7300	Basic fixtures Kit : • 1x Quick-Load Corner Fixture (QLC) • 1x 13mm x 150mm x 150mm R&R Acrylic Multi-Hole Fixture Plate • 1x (3) Dowel Pins • 3x 6mm Dia. x 10 and x 25mm Standoff • 3x 9mm Dia. x 5, x 10, x 20 and x 25mm Standoff • 3x 12mm Dia. x 10 and x 25mm Standoff • 2x 6mm Dia. x 10mm Pin Standoff • 2x 9mm Dia. x 10mm Pin Standoff • 2x 40mm Tension Clamp with Rubber Coated Tip • 2x 25mm Wire Clamp with Rubber Coated Tip • 2x 50mm Wire Clamp with Rubber Coated Tip • 4x Aluminium Resting Pin with M4 Thread • 1x 50mm x 50mm Corner Viewer for M4 • 1x 9mm Dia. Adjustable Jackstand with M4 Thread • 1x M4 Pusher Clamp • 1x 30mm and 1x 45mm Long Adjustable Slide with M4 Thread • 1x M4 Tower Block • 1x Micro-Clamp Vise with Base for M4 Components • 1x 12mm Dia. x10mm Spring Pusher Standoff Clamp • 1x 300mm x 190mm x 25mm Component Tray to Hold M4 Components	•	•
	902-7301	Advanced fixtures Kit : All Basic fixtures (acrylic plate 13x200x200mm) kit added with : • 3x 6mm Dia. x 5, x 10 and x 25mm Standoff • 3x 9mm Dia. x 10, x 20, x 25mm Standoff • 3x 12mm Dia. x 10, x25mm Standoff • 2x 6mm Dia. x 10mm Pin Standoff • 2x 9mm Dia. x 10mm Pin Standoff • 4x 12mm Dia. x 10mm Pin Standoff • 2x 40mm Tension Clamp with Rubber Coated Tip • 2x 25mm Wire Clamp with Rubber Coated Tip • 2x 50mm Wire Clamp with Rubber Coated Tip with 50mm Post • 1x 9mm Dia. Adjustable Jackstand with M4 Thread • 1x 30mm and 1x 45mm Long Adjustable Slide with M4 Thread • 1x Base 16mm Sq x 19mm (for M4 Tower Block)	•	•
	902-7104	Fresnel kit 0.5x / Fresnel lens + lens 0.5x + fixation screws (for Ringlight)	•	
	902-7105	Fresnel kit 0.75x / Fresnel lens + lens 0.75x + fixation screws (for Ringlight)	•	
	902-7106	Fresnel kit 1.5x / Fresnel lens + lens 1.5x + fixation screws (for Ringlight)	•	
	902-7108	Fresnel kit 0.5x / Fresnel lens + lens 0.5x + fixation screws (for Ringlight)		•

Optical measurement

APPLICATIONS

Measurement of small parts by magnetic levitation on SCAN S25T

Part measurement with SCAN S25T

Thread measurement with SCAN F60T

Part measurement with SCAN F60

Part measurement with SCAN F60L

Universal robot and SCAN S25T

Part lighted by ring light on VISIO

Part lighted by diascopic light on VISIO

Part lighted by coaxial light on VISIO

PLASTIFORM®

As an excellent complement to our Sylvac measuring instruments and optical machines, Plastiform's bi-component products allow us to obtain in a few minutes very precise impressions (replicas) of all the details of the surface to which they have been applied. Depending on the type of Plastiform product used, a complete or partial impression will be obtained with a soft, semi-flexible, rigid or semi-rigid consistency that can be measured optically. These products make it possible to avoid having to cut and therefore destroy sometimes expensive parts in order to be able to control them, or having to dismantle and move more important elements.

Plastiform®

SRL

DESCRIPTION

LIQUID PRODUCTS

- Products with an initial liquid consistency to produce high precision, optically measurable, flexible to semi-rigid full impressions.
- Easy to use products, thanks to their fluidity, they can be set up by themselves.
- Specially designed for complex internal shapes, such as threads and grooves that require flexibility so that the impression can be removed from the workpiece without breaking it.
- Semi-rigid impressions can be cut with a double-blade cutter to measure the cross-section optically.

Cans 1.7l

Cartridges 50ml and 400ml

Internal impression

Non-destructive control

Cans 10.2l

Plastiform®

SRC, SRD, SRF

DESCRIPTION

CEMENT, DOUGH & RE-FORM PRODUCTS

- Cement (SRC), Dough (SRD) and Re-form (SRF) initial consistency products for checking partial internal and external shapes that can be measured optically or, for some products, to size.
- Impressions can be cut with a double-blade cutter to measure the cross-section optically.
- The SRC8 Ra product enables the production of indentations on which the roughness Ra can be measured with high precision.

Boxes 900ml
